OtherBarak: So the real question is is Islam a religion of peace and in order to find that out we have today a video of Bridget Gabriel who is a Lebanese American activist who's going to in 15 minutes help us answer that question if I were you I would stick around until the end of this video don't skip don't leave watch the whole thing be patient because at the end of this you might be able to answer this question too let's get into it.

Brigitte: So what I'm going to do right now is I'm going to Crunch 1,400 years of Islam history in five minutes and make it as exciting as I can possibly make it because I hated history when I was a little girl at this age I appreciate history and now I understand why they say those who don't learn from history are doomed to repeat it.

In order for you to understand why Western Civilization is very different than the Islamic world you need to understand the history of Islam, when Prophet Muhammad supposedly revealed his Revelation from the angel Gabriel that he is supposed to be the last of the prophets in the early 600s he started preaching in his own City Mecca. He tried to recruit friends and followers to be able to spread his religion and he tried for 12 years and failed and after 12 years, he was only able to recruit his immediate family and friends.

So he decided if I go to Medina which was the Jewish Hub of Arabia the business Hub, where the Jews lived. If I go there and preach My Religion to them if they accept me, that will buy me respect and stature between my own people and they will accept me.

So Prophet Muhammad started borrowing a lot from the Old Testament to make his religion more palpable to the Jews, to make it a lot similar, this is why you see a lot of similarities between Judaism and Islam. For example Jews don't eat pigs, Muslims don't eat pigs, Jews pray a few times a day, Muslims pray a few times a day, Jews fast on Yom Kippur, Muslims fast on Ramadan.

And this is why you started seeing a lot of good writing in the beginning of the Quran, when Prophet Muhammad was saying all the good things about „the people of the book“ he took his message and went to Medina, trying to recruit the Jews talking about „the people of the book“. Talking about how similar the two religions are, when they refuse to accept him and follow, as the last of the Prophet.

That's when he turned against them and started killing them and started expelling them.

That's when Islam went from a spiritual movement for the first 12 years of Islam, into a political movement cloaked in religion, after the year of the Hijra, after Muhammad went to Medina and the Jews did not accept him. He became a military Warrior and declared war on them and started expelling them.

Jews and Christians became Demi or second class citizens, they were only allowed to stay alive and not be killed, only by paying the *jizya* or that protection tax, so they had a choice,

convert to Islam or if you want to stay alive! You have to pay the *jizya* or protection tax living as *Demi* in the Islamic uh Nation, Christians and Jews could not ring a church bell, Jews could not blow the chaar, Christians could not ring church bells, they could not pray publicly uh uh Christians and Jews could not gather together and build new churches or new temples and the way they paid the jizya or the protection tax was in a monthly ceremony, where they would get together downtown and the Jew would kneel on his knee and hand his Goods to the mullah who would take the goods as the as as the price for buying the protection and in many areas Jews and Christians were given necklaces to wear as a receipt that they paid their jizya or their protection tax.

Jews consider NIS under Islam NIS is bodily fluid NIS is uh is garbage NIS is dogs NES is dirty so Christians and Jews were treated as second class citizens. Islam continued to grow as Islam grew more people became Demi or second class citizens. Jew - Jews and Christians were given identifiable clothing the yellow star which was given to the Jews that most people think is a German invention it was actually an Islamic invention in the 9th century in Iraq by the second Khaliff of Iraq who invented the yellow star for the Jews to be identified, as they walked down the street, because Jews were considered NES.

If a Muslim man or a Jew walked on the same side of the street the Jew had to cross the other side so the Muslim man can walk so he's not dirtied by the filth of the Jew. Christians were given he zunar the belt which most of you men are wearing right now that was an Islamic invention for the Christians.

Islam continued to grow, they went all the way to Jerusalem, they conquered Jerusalem Christians couldn't ring their church bells in Jerusalem. The Pope in Rome in 1090 told the Christians: „How could you sit idly by and allow your brethren to be suffer, to suffer like this in the Holy Land“: You need to go Liberate the Christians, you need to go help the Christians, that's why the Crusaders were launched. The Crusaders - the Crusaders were not launched because they just felt like waking up in the morning and going and converting a bunch of Muslims or beheading them. The Crusaders were launched to liberate Jerusalem and they were able to liberate Jerusalem for less than 100 years, before Saladin took it back and Jerusalem remained under Islamic control until 1967, when the state of Israel liberated Jerusalem.

Where Christians Jews and Muslims could pray under the same Sky the Crusaders continued fighting Islam and for 300 years they tried and failed and by the 1300s the Crusaders disappeared, because they could not win against Islam. Islam continued to expand they went all the way to Central Europe, they went all the way to China, they went to India, they conquered Spain, they changed the name of Spain from Spain to Andalusia. And they started as as they Advanced, as they conquered more Nations, more people paid the jizya or the protection tax and this is how the Islamic empire grew.

It went all the way until they was stopped at the gates of Vienna on 9/11. I mean 9/11 is not a date that Usama Bin Laden just picked out of a hat 9/11 is a symbolic date in the Islamic

calendar between the 1600, by the 1600s Islam had covered more of the Earth's surface than the Roman Empire did at its PE, between the 1600s and the 1800s, the Europeans were experiencing the European Industrial Revolution, where the Europeans were able to invent products on Factory lines. Where they are able to make money and sell products which gave them the money to build a strong Army, in order to fight the Muslims and that's how they were able to stop them, at the gates of Vienna on 9/11.<sup>1</sup>

The the Europeans started the push back against Islam they pushed them out of Europe they pushed them out of uh all the way to the Middle East and North Africa by 1924. The Islamic empire ended in 1924, the Islamic caliphate ended in Turkey, by president at Ataturk who was a secularist.

He ended the Islamic empire and he gave women rights to vote he gave wom a right to in education a right to work a right to choose a husband, he forbid women from wearing the hijab, he forbid men from wearing the beard. The Muslim hate him so much, that they consider him a Jewish agent, because they believe that his mother, in her bloodline was Jewish and that was the influence on Ataturk by the time the Islamic empire or the Islamic caliphate or the Islamic State ended in 1924.

The Islamic caliphate had existed for 1,400 years and it ended less than 100 Years Ago by the time that Islamic caliphate ended in 1924, 270 million people around the world were killed by Islam - 270 million and we didn't have weapons of mass destruction and there was no nuclear weapons. All of these people were killed, butchered By The Sword, the people in the world less than a 100 years ago.

How many people knew this history? Please raise your hand. We in America have failed to educate our children about history, we in America failed to educate our population about history. Our children in high school you take any 17, 16 year old kid 18 year old kid and ask them about World War II. They can't even tell you what happened in World War II for them it's ancient history and we still have our World War II veteran walking Among Us.

That's how little we know of History. Islam ended in 1924 the caliphate people thought Islam will the caliphate will never be resurrected the caliphate will never come back but two things happened in the Middle East in the last century that made the islamist be able to resurrect the caliphate.

Number one is the discovery of oil in Saudi Arabia, which we were able to discover and were stupid enough to allow them to nationalize it that's right and the number two that happened was ayatolla coming to power in 1979, that gave the islamists the money and also the spiritual covering in order to explode on the world stage. And people say „oh well the wahhabis exported their wahhabi radical religion.“ The wahhabis are the name of wahhab they're not a different sect of Islam, they follow the authentic preaching of prophet

Muhammad, the way Prophet Muhammad lived and practiced his religion. This is why neither you or me or any Infidel can step a foot in Mecca, because as far as as they're concerned we are filth and as infidels we're not allowed to step a foot. Not President Obama and not anybody else as a matter of fact alqa used to use Saudi Arabia and its success as a - as an excuse to recruit members, as the example to show them how Allah has blessed Saudi Arabia, because of the way they adhered to the tenants of Islam and today we talk about Isis.

Isis is not a new invention Isis resurrected the caliphate that ended less than a hundred years ago except we are too ignorant and too uninformed to understand why. What Isis is doing and why Isis is succeeding two things. You need to understand about Islam and the principles of war in Islam.

One is the law of *takya*, which means lying and deception. It means that a Muslim man can lay his hand on the Quran and swear that he is telling the truth, knowing that he is lying, but also knowing that the Quran, will forgive him, because he is advancing the cause of Islam.

The second thing you need to know about is that the Treaty of *alud* which is an Islamic principle of war and a model on how to deceive your enemy, when you have to sign peace treaties, with your enemy and it is based on an example by Prophet Muhammad.

Prophet Muhammad was attacking the Meccans and their Caravans when he was living in Medina. One day he attacked them because this is how he got the goodies, he would attack them robbed them and spread the goodies among his men and this is how he was able to recruit, because this is how people made money without working.

And so he attacked the mechan Caravans when he realized he's not able to defeat the mechans in that city of Al hudia in that place he signed a 10year treaty with them. Does that sound familiar? Yes a 10-year treaty with them that says, he will not attack them, he will have peace with them, he will not declare war on them. Muhammad used the treaty for two years to build his military, strengthen his army and when he realized he was strong enough to attack his enemies, when they least expected it, because they they thought they had a peace treaty with Muhammad.

He broke the treaty attacked him two years later and Mecca fell within 2 4 hours, because they were not expecting the attack. And that became a principle of war in Islam. And to give you an example of how that is practice, this is why anything signed with Iran, means nothing to them and to give you an example of how this law has been put to use, in the last in recent history.

Yes Arafat who's not an islamist, but he is a Muslim, met with the Israelis and signed the Oslo Accord in 1993, remember all the hand shaking at the lawn of the White House the ASO Accord. Yasser Arafat used the peace treaty, the ASO Accord, with Israel to get Israel to bring him back and give him his territory, Finance his military, train his police and give his police the weapons Yasser Arafat broke the Oslo Accord eight years later. Didn't even wait 10 years and declared the second antifa in 2000 and all hell broke loose, he used the same treaty to

win and deceive against his enemies and deceive his enemies when Jordanian press after Yasser Arafat signed the Oslo Accord with Israel and Egyptian press would interview Yasser Arafat and they would say: How could you sign a peace treaty with the devil, how could you sign a peace treaty with the Jews? Yasser Arafat will tell them remember *hudia*, that all he would have to say the whole Muslim World, knew exactly what Yasser Arafat was talking about.

We in the west and the Jews in Israel it was over their heads nobody understood what *hudia* was referring to and this is the type of deception that we are dealing with. So when Iran signs a peace treaty with the United States for 10 years they are using us as *useful idiots* as glial, ignorant people, who are signing a peace treaty with the Devil, in order for - for Iran to continue her thing. That is why it is so important to be wise about who we're going to put in the White House next year.<sup>2</sup>
