This is the Jordanian opposition movement addressing the European Parliament in 2018 extremely profound words let's stick around talk about it and understand what this means.

Jordanian Politician: In the name of God the merciful the most merciful may prayers be upon our prophet Muhammad and all prophets included Mo Moses i would like to start uh by thanking the distinguished guests and the members honorable members for holding this uh session about a very important issue as a Jordanian Palestinian not that there is any difference between both so-called ethnicities when standing here in Brussels I am in a safe spot basically we the Palestinian Jordanian people the Palestinians are the chosen people of the European Parliament people in the European Parliament love the Palestinians they care for them they dream about us in their sleep how beautiful they care about how we are oppressed by the evil Zionist, Israelis.

While in fact those evil Zionist Israelis are the ones giving us jobs they are the ones giving us jobs when Lebanon bans us from all forms of jobs when the Hashimite Kingdom of Jordan which occupied 78% of our homeland prevents us from all kind of jobs the king of Jordan could come and present here and talk about peace and human rights while Israeli politicians could get arrested for arriving at your airports at the same time we see not a single European member of parliament not a single European politician speaking about the oppression of the Palestinians at the hands of the Hashimite Kingdom or the Palestinian authorities.

On the other hand your money your tax euros are financing the Palestinian police force which oppresses us tortures us and puts us in Disappearance this happens while you guys are obviously caring for us in good intentions but your judgment is very cloudy unfortunately most of you are seeking to destroy the very and only source of income and stability that we have which is the Israel.

Israeli, Jewish state, that state offers has offered us every hope there is in the last 70 years. We disagree with Israel on different issues we have several issues with Israel. Israel was not an angel, nor was Belgium an angel in Africa, nor was the United States an angel in Vietnam, nor was Jordan an angel. As of today you have to be fair and square to achieve justice.

Justice is collective you can't grant us justice, by denying justice to our Jewish neighbors, they are our neighbors. Half a million Palestinians every single day cross the borders to work in Israeli settlements, in Israeli homes, in Israeli hospitals, they work there, achieving European standard payments versus the no non-payments of the Palestinian Authority.

Oslo has brought us all everything that's evil, everything but happiness and nothing but despair and disasters, at the same time. I can't see that the European Parliament nor the European governments understand, that they are an accomplice knowingly or unknowingly, to our disastrous situation, by being against the only source of hope, that we have. You need to know that I am a textbook Palestinian/Jordanian. I have relatives who are in jail for terrorist charges, i have relatives in the Palestinian Authority, i have relatives who are in Hamas, i have relatives who are in the Palestinian intelligence, in a very seated Iraq job and the family! Yes their family has had martyrs, who died killing Israelis and we have also martyrs who were killed by Hamas, for being too liberal, that said my I am the son of two Palestinian refugees, who had to immigrate under threats and the promise from the Jordanian army, that all you have to do is leave your hometown and in two hours we're going to clear out the Jews and send you back.

It's been 70 years that said. Why are you denying me and my people the right to live normally? The right to find jobs, by supporting BDS bds, means no jobs for us no jobs for Israelis and when the Israelis move out and the companies move out do you sign our paychecks, when we run out of jobs, no you don't and let me tell you something.

The only people you sign paychecks to are the Palestinian Authority corrupts and criminals Abbas and others you need to know you are singing a very old tune most of you. I understand most of you are good people, but you are playing an old video this game is over.

Oslo is dead thank you and may this be enough on my behalf from the Jordanian Opposition Coalition Jordan's shadow government, the shadow government of 78% of historical Palestine. We are telling you it's time to accept change and it's time to embrace our Jewish friends, neighbors, brothers and sisters We are going that way most Palestinians cannot say publicly what I'm saying here: We want peace with Israel, we have had enough of this methical lie of the conflict and today look at this example of the Chamber of Commerce of Judea and Samaria. How many Palestinians have found work through that very chamber of commerce and will find work through it?

Why would you stand against people who want to do good they've mentioned the word Palestinians their manifest and in their videos much more 10 times more than they mentioned the word Israeli standing against them is standing against us our interest is Israel's interest.

We will only thrive when Israel does and Israel will only thrive when we do and this should serve as a last call for the European establishment, which I still insist is good intended. Either you stand with us, either you support peace and drop the terrorist Islamist radical anti-semitic regimes, like the Palestinian Authority, like the Hashimite Kingdom of an unelected undemocratic tyrannical regimes, unless you drop them you will be ousted soon from the entire game. It's either that you accept change or you simply stay out of it.

You have been very destructive to my people without knowing it. You have been supporting our oppressors morini. The European Parliament Union's foreign minister would have - she's a personal friend of both Abbas and Jordan's king. Will she talk to a real representative of the people like myself? No she wouldn't this has been very destructive to us. Enough with the pain that we have suffered both of us enough and I'm asking you let my people go let both our people go the Palestinians and Israelis let us go! Thank you, thank you.

OtherBarak: I want to say three things number one can we stop with the whole there is no Palestinian state there is a Palestinian state there's always been a Palestinian state that state is Jordan it just was named Trans Jordan at one point that's where Palestinians lived Jordan used to control the West Bank they didn't want anything to do with those 600,000 refugees inside of the West Bank the Palestinians have had a state it's called Jordan

Number two I find it fascinating that what he said at the end people aren't leaning into which is that Palestinians are not allowed to say what he's saying on stage which is true people talk about suppression people talk about voices being oppressed people talk about not not having the freedom to protest not having the freedom to go against your government they make it seem like Israel is running this apartheid state the Palestinians aren't allowed to speak up the Palestinians aren't allowed to protest and if they do we've seen over the past year and a half that sometimes when they do kamas comes knocking on their door i don't know why we as a collective unit are not listening more to these voices and number three.

And number three this video is from 2018 this video is seven years old people have been talking about this guys people have been talking about this issue this isn't new this isn't new so yes when people say this didn't start on October 7th yeah it didn't it definitely didn't start on October 7th this ideology has been seeping into the Middle East and the West and the world for way too long and what a shame that we have not listened to more people like him.
