

1. Velkommen til Norge

Norsk: Welcome to Norway! Yoseph: Thank you for having me. Norsk: you're very much welcome to be here. Yoseph: Thank you what have you heard about Norway before coming here well first of all I've been in Norway it's my first fourth time here twice in Oslo one in steinger and now here uh very excited again to be here there's really nice people and uh very Hospitality here I love it very actually every time I came here and in Oslo they know how a party there good yeah but actually Norway has is considered to be one of the most anti-israel states in the whole West if not the most anti-israel state did you

2. Norges forhold til Israel

take this into consideration before coming well of course I I not not only I know where I arrive in order to prepare myself but the bottom line is we need to differentiate between the people and the politics okay but when politics meet with the people and especially comes from a place of not knowing what's going on then we see that Gap the people are very nice here but the second you talk about a topic that you have no clue about that's where the problem is but I'm here actually to bridge gaps I'm here to come and speak

3. Differansen mellom folk og politikk

about the most difficult topics as an Arab from Israel and as someone who experienced every day in his life the Israeli Society so I'm here challenging anyone come speak to me talk to me I'll show you the truth and the reality about our society so what kind of country is Israel and for you as an Arab Israeli what what uh can you explain to us ofcourse I I can I can give you a little bit of my childhood I was born in haa which is the largest mixed City in Israel where you have Jews Christians Muslims and Drews living together but

4. Oppvekst i Israel som arabisk kristen

Yoseph: Raised in Nazareth which is the largest Arab City in Israel where we have Muslims and Christians living there and and and there's a reason why I'm telling you about those two uh cities because beside the education and uh and what my and the values that my parents gave me the city of Nazareth and the City of haa changed who I am and made me who I am today uh and there's a common thing that happened between me and my childhood friends which is playing football together yeah yeah and because we used to play football in Haifa which is the largest mix City in the football field Jews and Arabs were playing together play together yeah this is how we grew up you know and now I know that some Norwegian thinks that Arabs and Jews cannot coexist but in fact in Israel it's totally partnership partnership between us uh and this is this is how I grew up and that's my childhood yes and you're not only Arab but your Christian Orthodox and usually here in Norway and the mainstream media we hear about Arabs but Muslims and Jews exactly so what would

5. Kristne arabere i Midtøsten og trygghet i Israel

you would you say to such an opinion no first of all if you only know about the Muslim Arabs then you have no clue about the Middle East because you have Christian Arabs in Egypt in Syria in Lebanon in Israel and Gaza and the West West Bank and guess what do you know where the safest for Christians in the Middle East Israel so you know this is a why uh I always urge people to a little bit do a research before they speak about it look what happened in for the sect which is a Christian sect in in Egypt being persecuted by extremists from the Muslim Community and again we need to differentiate between the

majority of Muslims who are peaceful to the extremists and because people do not differentiate automatically they start talking about islamophobia automatically they start generalizing everybody no I'm not going to journalize uh I have uh many Muslim friends uh in my organization the majority of volunteers are from the Muslim Community we live side by side and we support each other our problem is with the extremists and that's what we need to do fight the extremists

Nortsk: yeah but here in Norway in the mainstream media also not for the

6. Kampen mot ekstremisme

extremists but for everyday Norwegian when we hear about Israel we also usually hear about a part head in segregation but um you as an Israeli do you feel like you're treated as a second class citizen? Yoseph: let's let's let's for all put the facts on the table okay apothide is a system that was in South Africa based on total separation between the white race and the black race total separation if in Israel there is an apothide then it should be a total separation between the Arabs and the Jews okay I wake up in the morning and

7. Myten om apartheid i Israel

if I use a public transportation I don't know if my driver is an Arab or a Jew and secondly I don't have a line for Arabs and line for Jews we're all together in the same bus station hospitals in South Africa for instance you have a hospitals for white people and hospitals for black people in Israel the hospitals are the best example to show the partnership between J and Arabs because you will see a Jewish doctor treating an Arab patient an Arab doctor treating a Jewish patient in my own eyes I tell you I went to visit soldiers who got wounded in the last war in in Gaza when I toov Hospital in Tel Aviv I came out and just I was arriving to the unit where they're treating these soldiers uh a Jewish Soldiers with a yamaka on his head he was speaking on the phone and this is what I heard he said Dr amjad to Dr amjad amjad is an Arab name yeah thank you very much I feel much better yes an Arab doctor it did an IDF Jewish soldier who was wounded in Gaza and operated on him you will see Jewish families and Arab families in the same room now I'm not again generalizing because obviously you have anti-semites or racists who don't want to be in the same room with Arabs or Jews it exists in Israel just like it exists in Norway just like it exists in the United States and everywhere in the world but I cannot disregard the fact that there is some sort of obsession towards my country when it comes to those topics if you categorize Israel based on the problems that we have as an apoid State then Norway is an apoid State then the United States is an apoid State then every

8. Israels rettssystem og likhet for loven

country in the world is an apid State wake up this is not the situation and one one more example that I would give you because I really want people to understand the facts about the myth of the apar take for instance the justice system in Israel we had a Supreme Court judge by the name of Saleem zuan an Arab from Israel he was on the team that sent to prison a Jewish prime minister and a Jewish president it was and moshik katav both of them committed crimes the Arab judge sent them to brison so one more time an Arab judge sent to prison a Jewish prime minister and a Jewish president come on wake up and speaking about the war what did the war in Gaza do to you or or I mean October 7th well you know October 7th hurt every Israeli and it doesn't matter if you are an Arab or a Jew it doesn't matter if you're a Christian Muslim or a drw you know where we got hurt badly it is the biggest disaster of the state of Israel since it's a creation and U but I will tell you one thing it made us stronger and more united today if you disregard the uh

9. Effekten av 7. oktober-angrepet på Israel

social media and the the media on uh on on television because how I'm on the surface I'm there I'm in the cities in The Villages I meet people I meet Arabs and Jews from all faith and I can tell you one thing for sure we want to bring all our hostages back home and we want to make sure that the terrorist organizations that's surrounding us be destroyed and that is a word of Jews and Arabs together because Hamas killed Jews and Arabs because Hamas kidnapped Jews and Arabs and let me be clear the interest of every Pro Palestinian is to make sure that Hamas is not controlling Gaza because first they har in their own Hamas' skade på både israelere og palestinere people they're harming the Palestinians then they're harming the Israelis both Arabs and Jews so if you really care about the Palestinians you really need to free Palestine and Gaza from the terrorist organization Hamas yeah and um one more question about the 7th October 7th Norway was together with Ireland and Spain announcing as a free independent state about 8 months after October 7th what do you think about this it's a populist move from those country

10. Norges anerkjennelse av Palestina og hvorfor det er problematisk

unfortunately peace will only achieved by both of the sides who are part of the conflict the Palestinians and the Israelis the more Europeans or Americans or anybody else get involved the more they are pushing us away because they do not understand the mentality of the Middle East and in fact we have in Israel people who do not understand the mentality of the Middle East because we are a western country with Western values but we are fighting a terrorist organization from the Middle East now why would Norway understand that why would Norway even care they do not know what we are suffering they do not know even what the Palestinians are suffering from Hamas you know and that's why I'm telling you that peace will not be promoted like this and a Palestinian state will never ever be a Palestinian State Yeah by forcing and saying oh well now we are recognizing a Palestinian State no it's not going to work like this if you really want somehow somehow I'm saying because after the 7th of October you know the Palestinians are to prove from age zero until the eldest one because for us the 7th of October it was a slap in the face it was a slap in the

11. Hva 7. oktober gjorde med fredshåpene

face even for the people who promoted peace and promoted two-state solution they are the ones who get murdered first in the southern of Israel they are the one who got murdered first kidnapped first those who are promoted peace those who hired Palestinians from Gaza to work in Israel to work in their towns they're the first one who got hurt and that's why I'm telling you if you really want to promote the peace and if you want to have some way of a chance of having side by side we need first of all to free the Palestinians from the terrorist organization who has only one Mission which is destroying the state of Israel and if you want to destroy the state of Israel then don't come and a cry when you lose in a war but what is level of support among the Arab Arabs in Israel oh this is a really good question you know uh on the 7th of October around 3 p.m. which is about uh 8 and 1 half Arabiske israelere og deres syn på Israel etter 7. oktober hours after the attack one of the uh Arab Israelis from Nazareth who actually opposed me who's against my ideas and my thoughts against the fact that I am proud to be an Proud to be an Israeli MH he gave me a call now I did not answer at the beginning because I know him and I know that his mission is only to curse or to uh threaten me but at some point he sent me a message and he said I beg you answer me because this is not what you think I'm very curious so I said okay maximum I will hang up if he CS again and he said this sentence to me I understand and the reason why he said I understand because for 50 hours yeah Hamas controlled the southern of Israel and in our mind the Arab from Israel in our mind Hamas is going to manage to actually invade and Conquer more towns in Israel and even arve to T Aviv and if joins then H would have just shook hands in t Aviv and at that point he

realized that he could live under terrorist organization and not under a democratic state where he actually have freedom of speech now not everything is perfect in Israel but definitely it's way much better than any Arab in the Middle East and that's when he told me no no no I got it the majority of the Israeli Arabs want to live as part of Israel as part of the Israeli society and we are more and more working on it

12. Hvordan vestlige medier feilrepresenterer konflikten

and inshallah in the future we will see that happening not only in the society but also politically but here in Norway typically uh someone that doesn't know that much about Israel and it's usually maybe not uh pro Israel more Pro the other side they would say that the Arabs H or the Muslims and the Jews are equally resp responsible for what is happening they don't have the like all the view it's not about Muslims and Jews it's not about Arabs and Jews that's this is exactly what they want and this is the I'm so glad that you asked question like you asked it like this we're speaking you have Arab Muslims and Arab Christians and DWIs are fighting in Gaza in the IDF right now as we speaking we have Arab doctors treating Jewish patients right now as we speaking we have lawyers judges we have anchor in the media we have uh uh Israelis serving in the police Israeli Arabs serving in the police in the fire departments in the paramedics the one of the first first victims of Hamas H first victims of Hamas was an Arab Muslim paramedic trying to save Jewish lives however it's not obligatory for Arabs to serve in the IDF I believe it's only one or two% uh so correct so basically since when I start the my journey in the IDF and volunteered back in 2003 you could literally count us on two hands yeah today it's thousands of Arab Israelis but in Israel you have something called the national service in the national service there's a huge huge Rising 10 years ago you would see two about 200 Arab Israelis volunteer to the service do you know what the number is today every year by the way so every year 200 Arab Israelis volunteers to serve in the n service today between 5,000 to 6,000 Arab Israelis every year serve in the national service if you make a quick math you know problem yeah if if you want to try to see look at the future if from now on and there's only increasing

13. Antisemittisme i Europa etter 7. oktober

but let's it stays 5 to 6,000 within the next 10 years 20 years you will have tens of thousands if not hundreds of thousands of Arab Israel is serving in the Police Department fire department paramedics hospitals schools serving and and volunteering in the national service these things will never be heard in the Norwegian media nobody will talk about those things so I urge you not to make this war about Jews against Arabs or Muslims against Jews it's not it is Israel and the IDF against the terrorist organization Hamas against the terrorist organization hisbah against the terrorist organization in Yemen against the irgc it's not even against the Iranians it's against the Iranian regime because the majority of the Iranian people love Israel and Israelis love Iranians it is the regime who actually control all this and that's our problem with our problem in the Middle East is not with Arabs I am an Israeli Arab how I am treated in Israel as one of the uh most prominent voices of of the state of Israel you know I walk on the streets and you would see how Jews and Arabs actually love each other and care about each other again not generalizing racists and anti-semites exist yeah you're famous for speaking up against for Israel and for the Israel cause but uh what about the Palestinians in Gaza don't you care about them I care a lot about them that's why we need to free them from Hamas do you understand yeah here's the thing if you are if you are a terror supporter and if you are a terrorist you're going to have a if you are an innocent person and it doesn't matter if you are a Palestinian Israeli American nor I do not care if you do not support terrorism you do not have a problem with me that is very basic okay I want the Palestinians to have a

better life those here who are chanting from The River To The Sea Palestine will be free or they're chanting in in Revolution in or there's

14. Radikalisering i Gaza og Vestbredden

only one solution uh in Revolution what they're talking about yeah according to the un uh or more than four 40,000 pal has been killed and uh more than 14,000 children has been killed and thousands are missing as an Israeli activist what do you make out of this how many combatants out of the 40,000 the UN says I'm not sure they don't how many of those kids are part of Hamas they don't how many of the 40,000 plus died uh from natural causes because they're old or they're sick because I'll tell you this every year in Gaza between 5,000 to 7,000 Palestinians die natural causes so we've been over a year so we know for sure that between 5,000 to 7,000 because that's the statistics yeah they died from sickness they died from just age yeah so 40,000 minus 7,000 now you're speaking about 32 right 33,000 according to the IDF yes about 15 to 17,000 combatants the IDF managed to eliminate the thing also if you take the kids someone who's at the age of 14 15 16 17 and up until the 18 if he is a terrorist part of Hamas because Hamas recruit them from that age if Israel kills and eliminates that 18y old young man who are who is a terrorist yeah the un will count him as a kid meanwhile Hamas presents of him as part of the terrorist organization Hamas

15. Palestinske myndigheter og korrupsjon

but further than that there's a reason why they are not telling you the whole number and specify what is the number because they don't want you to know the truth and then realize that Israel is doing an unbelievable unbelievable achievement in terms of War when it comes to a modern war against terrorists the thing when the United States and its Ally embarked on a war against the Taliban they managed to kill about uh 38,000 terrorists but in the process 128,000 civilians were killed as well if you do the uh math it is about for each terrorist they killed about 12 innocent people died the international average is 1 to 10 which means for every terrorist 10 civilians unfortunately or 10 Innocents di This Is War let's see what's going on in Israel okay we took the natural death of cousins every year we showed how many combatants there is and if you make the ratio between the combatants and how many innocent lives you would see that it's less than one to two it's unprecedented you don't hear anything about like something like this and the only reason why we're hearing like this it's because Israel and the IDF are taking the most the most unbelievable necessary measures in order not to hurt and harm lives I've seen it in my eyes I was part of it now if someone says well why should we listen to the numbers of the IDF it's the UN really so I'm going to ask you where the

16. Hva skjer hvis Israel trekker seg ut av Vestbredden?

UN gets its statistics from the Ministry of Health in Gaza who controls the Ministry of Health in Gaza it's Hamas it's a terrorist organization by the name of Hamas now if you are a western and when you compare between where you want to take your your your numbers and where you want to take your information from a terrorist organization or from an sovereign state democratic state in the Middle East the only one and you still choose a terrorist organization then you're an absolute idiot but and a terror supporter yes this information is not uh very much uh available available in the mainstream media but you present this information in is do that a prop Palestinian would would a part of the problem then so here's the thing a prop Palestinian who has symbols of the terrorist organization on him it doesn't matter if Jesus would come or Muhammad will come or any Prophet will come and tell him he will still not believe it okay because he doesn't want to believe it they have an Mission they have an agenda it's funny because Palestinians themselves are saying that palestine themselves and if anyone challenge me on that please come ahead I have tons of Tik Tok videos from Gaza saying otherwise I beg you come challenge

me and tell me you're a liar I would just shut up myself and just show them the videos of Gazans cursing senior cursing is Han saying that they brought death and destruction upon us saying that actually it is the IDF who are giving us

17. Fredsløsninger – hva kan fungere?

water and giving us food I have all those evidence in my phone you've been traveling a lot around Europe and now in Norway and seeing what's going on in the rise of anti-semitism what do you make out of this when you travel around Europe before I jump to this question I have to to to again clarify something when I speak to people there are three groups of people there are the pro Palestinians some of them are extremists with literally Terror supports yeah and there is also the pro- Israelis and there is also the 50/50 50-50 they are not in this side and they're not on that side like here in Norway well you know I the extremists oh good can I continue okay so I'll tell you what when I speak about the extremist it could be anybody anyone who actually supports Hamas is an extremist because it's a terrorist organization it's a terrorist organization that terrorized Palestinians and Israelis and that's why if you support it you don't support Palestine it's nonsense so so I do not expect me to convince the pro Palestinian extremist to change their opinion because they are supporting terrorism and I've showed them videos of Hamas killing and harming children they still support and they still support so what I do is I try to make them or use them 50/50 and to make the pro Israelis stronger and have the knowledge and the tools to continue that fight that is my mission with those two three groups as for the rising of

18. Hvorfor er Israel viktig for kristne?

anti-Semitism I mean this is absolutely unacceptable we we we are back to the days the dark days of the Nazis you have Jewish students or pro-Israeli students Zionists who cannot walk University in New York because if you're a Zionist you're not allowed to walk there or if you are a Jew you're not all allowed to walk there um so um don't you think it's very strange we live in a such a Society Where We rise above all of this antiem we think we rise above it um what what do we make out of it no so let's let's break it down a little bit to understand what's going on in Europe and in the western world yeah in the L latest years there was massive immigration from the Middle East to Europe to the Western World Canada United States now while the majority of those immigrants coming from the Middle East are peaceful and actually want to live in the country that they came to and adopt the rules and the values of that country the extremist are not now take for instance Canada between 22 to 23 1 million immigrants came to Canada yeah only 10% of them let's take just only 10% are radical extremists that's 100,000 extremists in your country by the way some of them tried to go from the Canadian border to United States the United States caught them and find out that they are on the list of terrorists yeah so we understand that actually Europe has poured and and the Western world has poured a lot of terrorist or Terror supporters into their country when I went and I confronted those protesters I did not speak with them in English I spoke with them in Arabic there is a minority of English speakers were there minority of English speakers and I'll tell you again watch in Norway when you have a protest you will see that Middle Easterns are there I've just had it in Oslo they came to protest against my own lecture and I did not have to speak with them I did not have to know Norway in Norwegian and

19. Hva kan Norge lære av Israel?

certainly English I spoke with them in Arabic and if I didn't speak with them in Arabic because I don't know Afghani or Pakistani language so uh so it's a mix of two things there is the influence of the ex ists from the Middle East who came here and instead of adopting the values of the West they are trying to use it against you against your own values and your own rules yeah would you say that the mainstream media indoctrinate oh indoctrinated absolutely and they inducted in that from the place of like oh we

don't want to be um islamophobic or what no you're doing you're harming the majority of Muslims who are actually harmed by those extremists because they're siling them because if they're not part of them what will happen is they will be beat up they will be killed intimidated threatened so they shut up despite the fact that they do not agree to what the extremists are doing those the majority of immigrants Who coming from the Middle East want to be part of Norway want to be part of the UK want to be part of Germany want to be part of the United States and Canada but they can't they can't because if they do that and the extremists are there while the local media is just you know Bing them in the name of freedom of speech this is not freedom of speech this is absolute incitement it's incitement against your culture against your values against your laws yeah and you're not waking up yeah we have a big problem there as well but I told you I going to get angry last question now as you know the newly elected president Donald Trump he managed to secure a ceasefire and agreement for release of hostages uh what kind of expectations do you have for the four years to come with the new president in the United States and an Administration that is uh probably the most pro-israeli Administration in history first of all the people who

20. Hvordan kan man bekjempe propaganda?

managed to bring a ceasefire and exchange for our hostages is our soldiers in the last 15 months they fought bravery men and women in the IDF fought like absolute amazing Fighters we decimated we managed to hurt the heart of Hamas we went until Yemen 2,000 kilometers from Tel Aviv and we bombed s and Huda until now they are trying to uh make sure that the fire is not continuing there we went to tan we managed to eliminate is we managed to bomb tan and bomb all the facilities of Terror facilities of the irgc we did the absolute revolution in Syria and managed to cut Iran from entering Lebanon through Syria and bringing heah weapons it's our army our men and women who managed to uh show The Middle East once again that Israel is a strong and powerful country so first of all for them now obviously Trump coming to that well the setup already is ready for him and being that he understand the mentality he understand the mentality of the Middle East Trump is a bus businessman and uh as a businessman he knows you either do that or if you're against me I'm going to come after you this is what the Middle East in the mentality of the Middle East looks like uh I'll tell you something about this you know in the Middle East they absolutely loved Barack Obama but they did not respect him they hate Donald Trump but they respect him because they fear him so if Donald Trump continue with that line and

21. Avsluttende tanker

obviously seeing uh the administration that he put which is a really pro-israeli uh Administration from rubu to everyone who was there I think that we have a possibility one after we finish the exchange of the hostages and unfortunately setting free the terrorists to eliminate Hamas and to make sure that they cannot Rule and control Gaza but also from that place to make sure that the Abraham aor Accord move on forward I want more peace with more Arab countries Saudi Arabia I want more Arab countries to be part of this Abraham Accords because Abraham Accords actually showed how important it is you know people do not realize that but uh during uh from the 7th of October until just recently beside El which is the Israeli National uh flight company while Delta American Air lines British Airways and of course United Airlines all of them all of them abandon the Israeli society and do not fly to Israel there was one more company flew every day to Israel five flights a day do you know which one it is fly Dubai an Arab company from the Emirates this is the bond between the Emirates and Israel when it comes to the Abraham Accords and then you have some Norwegian and some Europeans and some Americans coming and talk about our reality as they know what we experience and as they know what we're going

through and they've never in their life even steep foot in Israel or Mets an Israeli but they think they know better than us you know what be quiet you do not know better than us
