Rabbi: What a fascinating story you're you're about to hear noni Darwish in Gaza many many years ago with a father who was the founder of the original Hamas militia listen in something very fascinating

NONIE: there are so many children in the Middle East who are just like me their families are destroyed their fathers were killed for a fake cause my name is Nani Darish and this is my story i was born in 1948 in Cairo Egypt i uh lived in Gaza as a child so we were Egyptians living in Gaza yes i went to Gaza elementary schools israel was considered the enemy i remember in school as a child they would recite jihadist poetry every morning and I remember the girls would would recite this poetry wishing upon themselves to die in the jihad against Israel the word fid is an Arabic word for men who want to self-sacrifice you go sacrifice your life to to the larger cause of Islam that's what it means to be a fiday the fid were people of Gaza operating against Israel run by the Egyptian authorities you have to go into Israel and kill as many Jews regardless whether they're men women or children and that's what they did and my father was the head of the military intelligence he was the head of the Fidian operations i remember when commanders of Israel were in our house they were looking for my dad they wanted to kill him but they didn't find him he wasn't home so they left us unharmed they didn't kill us the mercy they showed us i knew that we didn't show them the same mercy the Fedin went into the homes and killed everybody.

One day me and my siblings we went to the movies i heard like a bomb or a noise and then the two soldiers who were with us said "Let's go we have to leave right now." And I remember I was I wanted to finish the movie i didn't understand what was going on there was a bomb letter in my my father's office and he opened the letter and it exploded and he died 12 hours later it was from Israel well at that time I hated the Israelis as I knew half the story the propaganda was still in my mind it took me a few years to really see the truth we left Gaza right after my father was killed went back to Cairo.

it's a very Islamic culture you don't find out of marriage pregnancy in Egypt it's so bad that you can get killed i was a teenager and we had a maid her stomach was a little bit big from the previous house she was in. she was raped as a young girl in a home and unfortunately she died, my mom asked how?

and they said "Oh her disgrace her disgrace." Which means she was killed she gets pregnant even because of rape they blame the girl it's a very sad story

there was a movement at that time where all the women wore head cover and I started feeling pressure from even friends why aren't you wearing a head cover the the poorer Christians in Egypt would even wear a head cover just to be left alone on the street when you start oppressing people eventually it becomes a way of life and then I had a boyfriend we wanted to get married he was a Coptic Christian if you're not a Muslim and you live in a Muslim country you are by law a second class citizen so we had to get married outside of Egypt so I felt it was time for me to leave

and I went to America at age 30 i spoke English and I had a job right away the one who hired me was Jewish he he never cared what my religion was and that was very different from where I came from where they hired on the basis of religion they fired on the basis of religion i came out of the Middle East so blinded to the truth and then with my first job with a Jew and how well they treated me I started seeing reality i even went to a church here and I thought they would be Preaching hatred like if you go to a mosque in Egypt you will hear prayers may God destroy the Jews and the infidels the enemies of Allah i told myself wow look look at the difference i went to a mosque one time only in America they were condemning Jews still and I said to myself I can't do that anymore this is sick this kind of propaganda that's uh against Jews and Christians has to be exposed

i went to visit Egypt in 2001 with my family with my children the anti-American propaganda was so strong something was going to explode i landed in America right before 911 when I saw the second airplane hit the Twin Towers I said "This is the jihad jihad has come to America." And that's when I started speaking out my whole life was a series of wars with Israel the Fiden didn't go away what you call Islamism it's called Fiden in the 50s and Hamas it can have many names but it's all focused on destroying Israel destroying anybody who's not an Islamic country it's a religious holy war when I found out who Israel is and who the Jews are really are I felt not threatened at all when will the Islamic world wake up they really don't have enemies in the Jewish people or the Christians my father died about a fallacy that Jews hated us and wanted to kill us and it was not true there are so many children in the Middle East who are just like me their families are destroyed their fathers were killed for a fake cause propaganda and lies outright lies about Israel and the Jewish people

Rabbi: Wow what courage it takes of an individual to go on such a path many are frightened for their lives but then they have to find a way to get out and not to be caught up in such lies what kind of life is it worth living when everything's a lie when everything is just propaganda to uphold the lie what are you giving to your children what are you giving to yourself and then you come and see how Jews treat you that they treat you nicely they treat you humanly they treat you like you're a creation in the image of God power to her and to those who seek truth and find a way to get out of living such a lie that is the key you know on some level we all live a lie it may not be such a devastating horrific lie as where Arie came from and what she's aware of but

all of us on some level in some ways are not being honest not being straightforward and living a lie sometimes living a lie is comfortable but it's like let me give you a metaphor a little child when they make in their diaper sometimes they cry out because it's bothersome but sometimes they just sit in it you know why because it's warm and it's comfortable so likewise in our lives sometimes we have things in our lives that can be a lie but it's our comfort zone it's what we know it's what we're used to it's I I know how to operate in this in this box and we sit in it and we sit in it but in the end we need to know what we're sitting in and it takes great courage to be able to rise up and to seek the truth and even a means outside of their comfort zone and to live with the truth that's the teachings of Tanya that we learn every day and I invite you to come and join every morning 9:30 a.m eastern Standard Time Mondays through Fridays we learn from the inner depths the secrets the mystical cabalistic truth of Torah in Natanya and it's a great empowerment and it's a wakeup call for me for me personally every day to see truth true teachings and what I need to live up to what we all can live up to and be empowered with join me

Rabbíni: Þetta er heillandi saga sem þú munt heyra um Noni Darwish í Gaza fyrir mörgum árum, með föður sem var stofnandi upprunalegu Hamas-hersveitanna. Hlustaðu á eitthvað mjög heillandi.

NONIE: Það eru svo mörg börn í Mið-Austurlöndum sem eru alveg eins og ég. Fjölskyldur þeirra eru eyðilagðar. Feður þeirra voru drepnir fyrir falskt mál. Ég heiti Nani Darish og þetta er sagan mín. Ég fæddist árið 1948 í Kaíró í Egyptalandi. Ég bjó í Gaza sem barn, svo við vorum Egyptar sem bjuggum í Gaza. Já, ég gekk í grunnskóla á Gaza. Ísrael var talið óvinurinn. Ég man eftir því í skólanum sem barn. Þeir lásu upp jihad-ljóð á hverjum morgni og ég man að stelpurnar lásu upp þessi ljóð og óskuðu sér að deyja í jihad gegn Ísrael. Orðið fidi er arabískt orð fyrir karla sem vilja fórna sér. Þeir fórna lífi sínu fyrir stærra málefni Íslams. Það er það sem það þýðir að vera fidi.

Fidi var fólk í Gaza sem starfaði gegn Ísrael, stjórnað af egypskum yfirvöldum. Þeir verða að fara inn í Ísrael og drepa eins marga Gyðinga og mögulegt er, hvort sem þeir eru karlar, konur eða börn. Það sem þeir gerðu og pabbi var yfirmaður hernaðarleyniþjónustunnar, hann var yfirmaður Fidian-aðgerðanna. Ég man þegar yfirmenn Ísraels voru í húsi okkar, þeir voru að leita að pabba mínum, þeir vildu drepa hann en þeir fundu hann ekki, hann var ekki heima svo þeir létu okkur ómeidd. Þeir drápu okkur ekki þá miskunn sem þeir sýndu okkur. Ég vissi að við sýndum þeim ekki sömu miskunn. Fedin fór inn í húsin og þeir drápu alla.

Dag einn, ég og systkini mín, fórum við í bíó. Ég heyrði eins og sprengju eða hávaða og þá sögðu tveir hermenn sem voru með okkur: „Förum, við verðum að fara núna.“ Og ég man að ég vildi klára myndina. Ég skildi ekki hvað var í gangi. Það var sprengjubréf á skrifstofu föður míns og hann opnaði bréfið og það sprakk og hann dó 12 klukkustundum síðar. Það var frá Ísrael. Á þeim tíma hataði ég Ísraelsmenn því ég þekkti helminginn af sögunni. Áróðurinn var enn í huga mér.

Það tók mig nokkur ár að sjá sannleikann. Við yfirgáfum Gasa strax eftir að faðir minn var drepinn. Fórum aftur til Kaíró. Það er mjög íslömsk menning sem maður finnur ekki í hjónabandi. Meðganga í Egyptalandi er svo slæm að maður getur verið drepinn. Ég var unglingur og við áttum vinnukonu. Maginn á henni var svolítið stór áður en hún kom í okkar hús. Henni var nauðgað sem ung stúlka á hennar eigin heimili og því miður dó hún. Mamma spurði hvernig og þau sögðu: "Ó, hennar skömm, hennar skömm." Sem þýðir að hún var myrt, hún verður ólétt jafnvel vegna nauðgunar, þau kenna stúlkunni um, það er mjög sorgleg saga.

Það var hreyfing á þeim tíma þar sem allar konur báru höfuðfat og ég fór að finna fyrir þrýstingi, jafnvel frá vinum mínum. Af hverju eruð þið ekki með höfuðfat? Fátækari kristnir menn í Egyptalandi báru jafnvel höfuðfat bara til að vera látnir óáreittir, einir á götunni. Þegar maður byrjar að kúga fólk, þá verður það að lokum lífsstíll. Og svo átti ég kærasta sem við vildum giftast, hann var koptískur kristinn. Ef þú ert ekki múslimi og býrð í múslimsku landi ertu samkvæmt lögum annar ríkisborgari, svo við þurftum að giftast utan Egyptalands, svo mér fannst kominn tími til að fara. Ég fór til Ameríku 30 ára gömul.

Ég talaði ensku og ég fékk strax vinnu. Sá sem réði mig var gyðingur, hann var alveg sama hvaða trúarbrögð ég hafði og það var mjög ólíkt því hvaðan ég kom, þar sem þeir réðu fólk á grundvelli trúarbragða, þeir ráku það á grundvelli trúarbragða. Ég kom frá Mið-Austurlöndum, svo blindur á sannleikann. Og svo með fyrsta starfið mitt hjá gyðingi og hversu vel þeir komu fram við mig, fór ég að sjá raunveruleikann. Ég fór meira að segja í kirkju hér. Ég hélt að þeir væru að prédika hatur, eins og ef þú ferð í mosku í Egyptalandi.

Þá munt þú heyra bænir. "Megi Guð eyða Gyðingum og vantrúuðum, óvinum Allah", sagði ég við sjálfan mig, vá, sjáðu muninn. Ég fór aðeins einu sinni í mosku í Ameríku, þeir fordæmdu enn Gyðinga, og ég sagði við sjálfan mig að ég gæti ekki gert þetta lengur, þetta er hræðilegt, þessi tegund áróðurs sem er gegn Gyðingum og kristnum mönnum verður að vera afhjúpaður.

Ég fór til Egyptalands árið 2001 með fjölskyldunni minni og börnunum mínum. And-ameríska áróðurinn var svo sterkur að eitthvað ætlaði að springa. Ég lenti í Ameríku rétt fyrir 11. september. Þegar ég sá aðra flugvélin lenda á Tvíburaturnunum sagði ég: "Þetta er Jihad, Jihad, er komið til Ameríku." Og þá byrjaði ég að tjá mig. Allt mitt líf var það röð stríða við Ísrael, Fiden hvarf ekki. Það sem þú kallar íslam, það heitir Fiden á sjötta áratugnum og Hamas, það getur haft mörg nöfn en það snýst allt um að eyðileggja Ísrael, eyðileggja alla sem eru ekki íslamskir.

Það er trúarlegt heilagt stríð. Þegar ég komst að því hver Ísrael er og hverjir Gyðingar eru í raun og veru fannst mér ég alls ekki ógnað. Hvenær mun íslamski heimurinn vakna? Þeir eiga í raun enga óvini í Gyðingum eða kristnum mönnum. Faðir minn dó vegna rökvillu um að Gyðingar hötuðu okkur og vildu drepa okkur.

Og það var ekki satt, það eru svo mörg börn í Mið-Austurlöndum sem eru alveg eins og ég, fjölskyldur þeirra eru eyðilagðar, feður þeirra voru drepnir fyrir falskan málstað, áróður og lygar, hreinar lygar um Ísrael og Gyðingabjórðina.

Rabbí: Vá, hvað það þarf hugrekki frá einstaklingi til að fara slíka leið, margir eru hræddir um líf sitt en þá verða þeir að finna leið til að komast út og ekki festast í slíkum lygum, hvers konar líf er það þess virði að lifa þegar allt er lygi, þegar allt er bara áróður til að viðhalda lyginni, hvað ertu að gefa börnunum þínum, hvað ertu að gefa sjálfum þér og svo kemurðu og sérð hvernig Gyðingar koma fram við þig, að þeir koma vel fram við þig, þeir koma fram við þig mannlega, þeir koma fram við þig eins og þú sért sköpun í mynd Guðs, kraftur til hennar og þeirra sem leita sannleikans og finna leið til að komast út úr því að lifa slíkri lygi, það er lykillinn, þú veist, á einhverju stigi lifum við öll í lygi, það er kannski ekki svo hrikaleg hræðileg lygi eins og hvaðan Arie kom og hvað hún veit, en við öll, á einhverju stigi, á einhvern hátt erum ekki heiðarleg, ekki hreinskilin og lifa í lygi, stundum er þægilegt að lifa í lygi en það er...

Leyfðu mér að gefa þér myndlíkingu: lítið barn þegar það gerir bleiu sína, stundum gráta þau vegna þess að það er pirrandi en stundum sitja þau bara í því, þú veist af hverju, því það er hlýtt og þægilegt. Eins og í lífi okkar höfum við stundum hluti í lífi okkar sem geta verið lygi, en það er þægindaramminn okkar, það er það sem við vitum, það er það sem við erum vön. Ég veit hvernig á að starfa í þessum kassa og við sitjum í honum og við sitjum í honum, en að lokum þurfum við að vita hvað við erum að sitja í og það þarf mikið hugrekki til að geta risið upp og leitað sannleikans og jafnvel leiðar út fyrir þægindarammann sinn og til að lifa með sannleikanum.

Það eru kenningar Tanya sem við lærum á hverjum degi og ég býð þér að koma og taka þátt á hverjum morgni klukkan 9:30 að austurlenskum tíma, mánudaga til föstudaga, lærum við úr innri djúpinu leyndardóma dulræna kabbalistíska sannleika Tórunnar í Natanya og það er mikil valdefling og það er vekjaraklukka fyrir mig persónulega, á hverjum degi, til að sjá sannleikann, sanna kenningar og það sem ég þarf til að lifa. allt að því sem við öll getum staðið undir og fengið styrk með því að vera með mér.

Born Radical Muslim, Taught to HATE – Now I DEFEND Israel (Nonie Darwish)

<https://www.youtube.com/watch?v=cQdcryYn3rc> 27 mín.

All religions are not equal!

I was born uh in the Middle East under Islam and I am now on a death sentence because I don't practice the religion anymore.

yes there are religions that are very harmful to society some religions that are very very harmful to the human Spirit to society as a whole to the political system um look at all Middle Eastern cultures all their governments from one revolution to another from one kud to another nonstop is that a coincidence do they have a religion that makes their society in or that helps them uh produce an orderly Society?

I don't believe so and that's why I can't visit the Middle East where I came from because I'll be killed by the religion

I was born into not all religions are equal some religions are uh are very helpful to society and that's why I became Christian

human nature however by itself is perfectly capable of harming Society with or without religion because uh a religion like Islam has to protect itself constantly it seeks it seeks to survive at the expense of Human Rights uh the there's a Sheikh called Kik karwi recently it's on YouTube you can watch him he's the top authority onuh uh in uh uh Sunni Islam he's the top one of the top authorities and he ly

said that apostasy has to be punished by death because if Islam abandons death for apostates Islam will not exist uh the top leaders of Islam cannot let go of the death penalty for apostasy in Islam

why because even they don't believe that their religion can survive without government enforcement the death penalty

the death penalty is part as part of uh Sharia it's in all the schools of Sharia uh it condemns those who leave Islam to death this is a fact in all Shar schools of law okay in the process of protecting their religion what happens with Islam is imp that process of protecting Islam they have produced an ideology that is antium, beings anti freedom, because Islam needs to survive and it has produced, produced rights, certain rights, to the religion not to be offended.

You have a religion that has a right not to be offended under penalty of death, while at the same time that religion seeks to control government.

Islam one of the you know is has to control government uh Islam without government enforcement is uh cannot does not have, uh any does not have any strength to survive without government enforcement. so you have a religion that relies on government enforcement, while at the same seeks government what is the problem with all the Revolutions in the Middle East.

Right now what's the problem the problem is a fight between people who want Islam to control government and between people who don't want Islam to control government under Islamic theology.

Islam cannot exist without government control and that's why they have all this chaos in the Middle East between those who want government control and who those who don't want government control, but at the the same time the same religion, that wants to seek government does not allow under penalty of death.

Criticism it's offended, always don't offend me, because I am a - I'm a religion if you offend me or if you criticize me, then you're you're an islamophobe and I refuse, that premise, I refuse that premise, because if a religion seeks government, government to control, government that religion, has opened itself to criticism, it cannot seek government enforcement, it cannot seek government enforcement and at the same time forbid criticism if you want to be in control of government, then you have to accept criticism and this is the Delima of Islam. Thank you.

I was invited byab TV network an interview about me having a website called Arabs for Israel the first question of course the guy was talking to me on on the show, with disgust.

You have, you are, you know, betrayed your father, because my father fought the fought Israel. he killed a lot of Israelis, these people and and they killed some of his guys too and he told me how could you forgive the Jews they killed your father?

and my answer was forgiveness how about the concept of forgiveness he couldn't understand what I'm talking, talking about.

he immediately called me a traitor and I have Dishonored my father just for the idea of forgiveness see forgiveness is a value you go to any synagogue any church you hear the word forgiveness as something good something to Aspire for

in my culture of origin it's exactly the opposite it means treason. Treason to your people and that's why my whole family in Egypt - many of them, don't talk to me anymore, because I am on the side of America, on the side of Israel.

I went to a synagogue with one of them. I went to a church with a Christian friend and when I entered the the synagogue I said to myself: „oh okay we're going to start heting cursing of Muslims like in the mosque we hear cursing of Jews and Christians.“

are you aware that in mosque Services all across the Middle East.

The service always ends with cursing of non-muslims the shikh the Muslim shik would say may God destroy the Jews and the infidels the enemies of Allah this is the ending of this spirit ual experience of being in a m

and I was stunned that in the in the synagogue they - they were praying for for the whole world peace on Earth!

I left that day and I was like something is wrong with my religion. **Something is major wrong with my religion.** I discovered that it's my religion, that's cursing everybody and nobody's cursing in us.

It was an eyeopener for me and I started wanting to know more and the more I learned the more I was I was discovering that go oh my God.

the indoctrination I grew up with. The hatred. I grew up with, was all a lie. It was all a propaganda the reason Islam came to being is the reaction to repel Judaism and Christians. And that's why 64% of the Quran is all about cursing Jews and Christians and non-muslims, non-believers.

Islam came came to existence to assert the Arabian Peninsula culture. To make the araban Peninsula culture Superior and to legitimize it, against the the you know coming infiltration of Judaism and Christianity.

It's so obvious if you read the Quran, it's all about this it's all about comparing itself with the Judaism and Christianity and finding them at fault.

Finding them bad. this is a very negative kind of value system, because a religion usually comes with new ideas.

Okay this is what I believe in this is what I want my followers to do and this is this is ABC d and e and this is what I want to do Islam is not like that **Islam doesn't want to talk to his people it's talking about their enemies.**

Islam is cons consumed with its enemies it doesn't talk to the hearts and minds of Muslim people.

That much if you read **the Quran? It's all about how Muslims must reject, hate repel and even kill non-muslims. This is the basic value system in Islam and the only way Allah is in Islam. The only way Allah will reward you with Heaven is if you kill the enemies of Allah.**

In Islam God, the god of Islam, needs his followers **to kill his enemies.** The god of Islam needs to Venge by using Muslims his followers to kill the enemies of Allah, because Allah is incapable of handling his own enemies, that Islam is a negative ideology.

It's a rejection against people, that they don't like. It's a way to control other people. The values of Islam is all about control.

Controlling women - controlling the citizens, what they do, how they eat, how they walk, how they talk – everything.

Women cover yourself or else you're asking for it, this is - this is the value system in Islam.

And it's exactly the opposite of the Jude Christian value system.

and the reason there is animosity that - that is produced. Why do we have an Arab Israeli conflict.

Muhammad when he started his religion to preserve Arabian Peninsula culture.

He wanted to preserve this culture: „Don't change me - don't come to tell me your love your neighbor like yourself don't come to tell me I'm going to have one one wife only.“

Muhammad had 11 wives and one of them was 6 years old when he married her and he consummated the marriage when she was nine and he had concubines when when he fought people he in the war he took the women as sexual slaves so who are you to tell me that this is not - not fair or not good? „Your [Muhammed] religion is the bad one. I am the good one.“

This is where the split happens and then Muhammad moved from Mecca when his own tribe didn't like him - his own Arab tribe didn't want to convert to Islam.

He moved to Medina which was a Jewish tribe three tribes lived in Medina all Jews all Jews tribe he moved there thinking he he was telling his people in Mecca I'm going to convert them you didn't want me look the Jews are going to convert you you'll see so he moves to Medina thinking that the Jews will follow him and he'll make a good example to his own Arab tribe and from Medina he started attacking the Caravan.

The Caravan um Caravan trade Caravans from Mecca Arabs who doing trade with Syria Muhammad actually stood in the route of the Caravans and attacked them and he called them holy battles.

Holy battles in Islam all of the documented battles of Muhammad were called holy battles against enemies the unbelievers.

the unbelievers and he took the women as sexual slaves after the B and he he he took their the Caravans were using trade he took the he took the goodies and this is a quote by Muhammad by the way.

and I'm quoting from Islamic books. Not from my opinion. Muhammad said I have been Victorious through Terror

the word terror is mentioned many times in the Quran. it's in the Quran and he is proud of it as a way of becoming Victorious and wealthy. and then the Jews started feeling scared look what this guy who came to live with as he's killing his own people he started getting scared and rightfully so so what happened Muhammad started looking bad what kind of prophet of Allah kills his own tribes to take their goodies?

he started looking bad and the Jewish people refused to convert to Islam so he flipped at the beginning. He he called them nice names: „You're going to be the people of the book you know.“ but when they didn't convert he flipped completely

he expelled many of them he wanted to to kill them: there was a rabbi who pretended to to convert to Islam in order to convince him not to kill them.

This is all written in Islamic books, by the way this is not written in Hebrew books.

This is written in Islamic books and then the books of Muslim books describe what Muhammad did to the last Jewish tribe

He surrounded them until they were starving he started digging trenches and what did he do he took all the men over puberty age like over 12 and spent two days - the prophet of Islam, spent two days beheading them.

And you wonder. Why they're beheading people now? Muslims are beheading people on the internet and they are proud „Allahu akbar!“ [Guð er mikill!]

He beheaded them and after he beheaded them he took the women and they and he had the first pick. He picked a woman called Safia. Whom he killed her husband, her father, all her male relatives and he made her his concubine. Not a married woman - his sexual slave until she died in his possession.

He after that gave all the women to the, to the soldiers and told them pick your sexual slaves or whatever slaves. Take all the children convert them to Islam by force and make them slaves after Muhammad did.

That even by Arabian Peninsula standards, this was not holy! Even by Arabian Peninsula standards!

Some of his soldiers were running away from him they didn't want to kill the Jews, because they lived with them in the same city

And there comes some verses in the Quran that tell the soldiers that ran away you're going to be cursed you're going to God Allah will not will - will take you to hell.

And he said in the Quran: „those who go and kill the Jews will go to heaven and don't worry you're not killing them with your hand it is Allah's hand that is killing them.“

This is all in the Quran. Muhammad was a tormented man, he had to find a reason. Reason for what he did, because even by Arabian Peninsula Standard, this was not holy. Thus the next day - in the Quran a verse came to Muhammad saying: „we did not, I really, we didn't kill, with our hands. It's Allah's hand that killed them.“

And not only that he said and besides we didn't kill any human beings. „Jews are pigs and apes and enemies of Allah, they are descendants of apes and pigs, they are just like the animals that we Slaughter to eat.“

This is how Islam tells Muslims what it feels to kill a Jew you're not killing with your hand you're killing with Allah's hand and that's why they put their hands in the blood and say: „yay Allah's hand“ until today.

This is a sick ideology and nobody wants to talk about it the last word of Muhammad to his followers was the [time 20:15] following:

„oh Muslim oh servant of Allah go kill the Jews wherever you find them and if they hide behind a rock or a tree The Rock in the tree will tell you oh Muslim oh servant of Allah there's a Jew behind me come and kill him.“

[Sura 9:5xx. „ When sacred months are over kill the idolaters wherever you find them....

This is a verse from the Quran. This is I'm sorry this is a Hadith by Muhammad and it's being recited in every mosque in the Middle East to make Muslims and Arabs feel not guilty if they kill Jews and not just not guilty, but proud entitled and those apes and pigs should not have the right to resist or defend themselves, because they're enemies of Allah, this is the philosophy

that Europe is gathering. This is the philosophy that CNN is catering and this is the philosophy that half the world is siding with the Palestinians.

It's twisted and this has to be exposed, this pathology has to be exposed and that is why when Muhammad died no muslim could be truly and truly forgive the Jews and just treat them as the rest of the humanity.

you know why because if they forgive the Jews and treat them as the rest of humanity, it means that their Prophet was a mass murderer.

the prophet was a mass murderer so it became an existential problem for Islam!

It's either Muhammad was a mass murderer or the Jews are apes pigs and enemies of Allah.

Guess what is Islam and Muslims chose of course? It was the fault of the Jews! The minute they forgive - the minute they treat the Jews as human beings, is the same day that Islam becomes null and void.

It's an existential problem for Islam and that's why we have an Arab Israeli conflict and that's why Arabs, after Muhammad died, expanded conquered Egypt, Persia in the same year to 639 and they went to Jerusalem 100 years after Muhammad died.

They built a musk on top of the ruins of this Solomon Temple the Jewish temple. Why did they do that, why didn't they build it next to it and just out of respect for the Jews? Why did, when they went to Egypt, they didn't build a mosque next to churches there? Because Egypt used to be a Christian Nation they converted the churches to mosques, because, they Islam, does not want to coexist Islam wants to replace it's not like Judaism and Christianity or Catholicism and Mormonism or it's not like they both have the same building next to each other and say hello good morning.

No they want to replace and that's why they went to Jerusalem thinking they're going to erase the memory of the Jews nobody will know that we committed an atrocity a slaughter a Holocaust in the 7th Century against the Jews by, by, by Muhammad it's an existential problem for Islam and that's why a lot of people ask me when are the Arabs going to be you know?

„When when are Muslims going to realize you know and reform their religion.“

It's impossible because the minute they reform the religion and and accept the Jews as human beings is the same day, that Islam and Muhammad become illegitimate.

This is the truth and that's why Islam the number one enemy of Islam is the truth - the number one friend of Israel is The truth.

The number one thing that that Jews Like is the truth and Christians. We have a cultural problem over truth and the world doesn't see it. The world have bought the this uh the world have bought this, this Islamic victimhood, you know this pathology, that is confused.

And unfortunately Western media has is confusing everybody. I mean it's - it's an atrocity, that we have a media that's spreading falsehood!

And there's you know you can get a murderer and the - the - the - the family of the murdered person and CNN will sink and talk to the murderer. And the family of the murdered person as

equal. Which side is right and which side is wrong? We don't know, we don't want to Take inside that's what the media is telling us now, that everything is relative. Everything is equal: This is the murderer, this is the family of the the kids of the murdered party and we really don't know who's at fault here it's unbelievable, what's happening today in Israel, is unbelievable.

She Left ISLAM. What She Says About ISRAEL Will Leave You Speechless...

- Why accepting Israel would destroy Islam's foundation
- The indoctrination Arabs face from birth
- The double standard of peace-talks vs. jihad rhetoric
- How Islamic theology aims to replace, not coexist with, other religions
- Why the UN, Leftists, and Islamists find common ground in opposing Israel
- The spiritual and ideological war against biblical values

Nonie: If Islam accepts Israel and the truth about Israel and the legitimacy of Israel and the legitimacy of Jerusalem being a Jewish city if Islam does that Islam is finished.

Spyrjandi: The dichotomy that I'm referring to you also see in Israel You see it because Arabs do work in Israel Arabs do come in and they are a integral part of the economy there and and people are respectful of each other Right.

Nonie: Exactly.

Spyrjandi: Um that but then they go back to their indoctrination whether it's in Gaza or the West Bank or wherever it may be Eastern Jerusalem Okay Um talk to me about the dichotomy today about how we can approach the Arab the Arabs and and I for a lack of a better term and I keep referring back to this the the moderate Arabs okay because I know a lot of Arabs in Israel like Israel.

Nonie: Of course.

Spyrjandi: So you're refer So I'm referring to the moderates in Israel They like Israel They they respect Israel right they they're they're able to raise their families in in in relative security Okay You're you you refer to them as traitors or or they're refer they are referred to as traitors Is that?

Nonie: Well if you truly love Israel and are public about it you become a traitor Mhm But there is a double uh psychology about Arabs that the West doesn't understand When I was a Muslim I could incorporate two opposite views at the same time in my mind and feel perfectly comfortable with it On one on one hand I love western freedoms I love uh to be to say I love peace On the other hand when somebody goes to go kill the Jews I look at it as normal I don't see the conflict here Unfortunately a lot of Arabs have that attitude am we were trained for 1400 years to incorporate two opposite ideas at the same time in our mind and feel com perfectly comfortable with and the west doesn't understand that for instance a m a Palestinian reader or an Arab leader can can say Islam is a religion of peace we only want peace with Israel it's they are who don't want peace we want peace Okay you hear them say that and at the same time that same leader in the same day will turn around speak to an Arab audience and say jihad jihad go kill the Jews

Spyrjandi: Right

Nonie: and that same leader feels no conflict whatsoever in what he says I was like that And that is a part of the Islamic mind That's how we were trained to celebrate wanting to kill Jews and at the same time we want to enjoy living in their benefit

Spyrjandi: It's also it's almost sociopathic

Nonie: Yes Because I was one of them So I understand when I came to America even though I I felt that there was a problem with Islam I still defended the Palestinians and I I still could sit in a group of people and and and and speak ill about Israel I did that.

Spyrjandi: If Islam accepted Israel which I don't ever see happening?

Nonie: then Islam is finished

Spyrjandi: It's illegitimate

Nonie: If Islam accepts Israel and the truth about Israel and the and the legitimacy of Israel and the legitimacy of Jerusalem being a Jewish city if Islam does that Islam is finished you know theologically.

Spyrjandi: theologically speaking Listen I I was in Israel a couple of years ago and I was very fortunate through some connections that I was there with to receive a tour of uh tunnels where they're excavating under the First Temple under the Western Wall.

Nonie: Yeah

Spyrjandi: Okay Now there's areas where a lot of tourists can go We went deeper than that It was Indiana Jones Raiders of the Lost Arc There were scaffoldings and rickety bridges and it was incredible And as you go down deep deep deep deep you see the layers It's almost like a seven layer dip You see the arches the Muslim Yeah A city built built on a city on top of a top of a top of a and then you hit bedrock.

Nonie: Yes

Spyrjandi: And the bedrock is the first temple.

Nonie: Yes

Spyrjandi: That was there before the Babylonians and Nebuchadnezzar came in Absolutely Right So you are looking at facts You're looking at history In fact I carry this around with me and I may not probably show this on television This is from the bedrock

Nonie: Yeah

Spyrjandi: This is from the bedrock of of of of the first temple There is nothing beneath that

Nonie: This is what Islam wants to hide

Spyrjandi: And you and and so how do you have this debate with people that just in just say that this doesn't happen This isn't a fact

Nonie: Islam does not want to uh accommodate anybody Islam does not want to uh live in harmony with other Ideologies Islam wants to replace It wants to take your place Islam does not want to accommodate other religions Islam wants to replace them

Spyrjandi: And so it's not about living in peace then?

Nonie: No No See this is what Islam wants to cover right how does it cover and it tried to cover it many times physically on top of it a mosque right that's what they did

Spyrjandi: Right

Nonie: so if you take out the mosque you'll see the Jews and uh the Jewish holy land And this is this tells you Islam as an ideology really is a it wants to replace It doesn't want to coexist And this is the nature of Islam It does not want to coexist.

Spyrjandi: So how do you wake the the the Again getting political here again but this is the reality of our world today How do you answer the leftists the multiculturalists today throughout Western Europe the mayors of London and Birmingham Listen I drove I drove through Birmingham uh about 10 years ago and on my way to the airport I actually wrote about this once On my way to the airport I stopped for a pint in a pub I had no idea where I was I figured it was just a pub It was England And I was in the the guy the the bartender comes up to me and he says "You better get out of here Gov says "No you're you're you're not welcome." And I look around and there was a bunch of it was 2:00 on a Thursday and it was filled with uh 20some men groups of men wearing you know football outfits and they were all staring at me and I all realized immediately they were all Middle Eastern

Nonie: Okay Was it a pub?

Spyrjandi: it was a pub

Nonie: And now it turns out serving beer?

Spyrjandi: Right There's right there There you go So you know so

Nonie: see it's not religion then?

Spyrjandi: right no it's it's hatred It's hatred

Nonie: It's hatred So it's not it's not religion

Spyrjandi: That's against that's against the Quran right so.

Nonie: So it gives you an angle about what Islam is all about what's the priority of Islam

Spyrjandi: So I I guess and I don't think there is an answer to this but you know because you've been an outspoken advocate uh for for years and years on this to awaken people addressing the leftists and the multiculturalists. What can we say to en I hate the term to make them woke awake

Nonie: yeah Well they won't because they agree with the basic philosophy of Islam. Islam was created as a rebellion against the Bible Islam does not want to coexist with the Bible. It doesn't want to coexist with biblical values It feels extremely threatened with Bible and the biblical values And that's why Jews and Christians were practically almost eliminated from the Middle East I mean if you can't see that there's no way I can convince anybody Islam was created as a rejection and a rebellion It's a counterrevolution to the biblical revolution The biblical ethics revolution was destroyed by Islam in the Middle East And then it moved to Europe and the west And now the west has no more the left in the west uh no longer cares about their biblical roots In fact they want to destroy it They think they can maintain their - their level of sophistication

uh human rights democracy equality all their views about what life should be They think **they can maintain that without the Bible but they can't**

Spyrjandi: Last last question for you on the Israel issue and that is why does half the world you see it at the UN It's over half of the UN support the Palestinians and and Hamas?

Nonie: Yeah Because they respect numbers Humanity is more - it's all about power and numbers If you get a group of people and one person is has a minority view even though his view is the correct one uh most people most people the majority of people will gravitate to please the majority. The number of Muslims in the world number of nations in the world are Muslim so the United Nations naturally is more controlled by more more its numbers the goals of Islam and the goals of the left are similar and you know what, what it is similar, in **that they want total control of the human mind**. That's what they want. Spyrijandi: People say that about progressives and you've seen that with free speech and the totalitarian Islam

Nonie: wants total control of human mind and the left the goal of the left and secularism is to make us all little robots in their world and they give us a little salaries We all work for the government and uh we all live in similar housing Uh and they throw a little meat at us and we're like little animals We devour it and we're happy for the for the for the government to take care of us.

Spyrijandi: Yeah Yeah
